- www.linkedin.com/in/mikeeaangelo

PROFILE

Aspiring AI Prompt Engineer with hands-on front-end experience and a strong drive to build solutions that solve real-world problems.

Driven to harness AI for solving real-world challenges. Eager to grow in a collaborative environment where I can contribute bold, creative ideas and technical skills to build meaningful AI-powered solutions.

LOCATION

- Abar 2nd, San Jose City, Nueva Ecija, Philippines

SKILLS

- Laravel Framework
- Prompting/Leverage AI/Use of LLMs
- Git/Github
- Prototyping Ideas/Solutions
- MERN Stack

Language

- English
- Filipino

Education

(2020 - 2025)

- BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY MAJOR IN SYSTEMS DEVELOPMENT
- **CENTRAL LUZON STATE UNIVERSITY**
- GRADUATED - FEBRUARY 2025

Experiences

HOTEL MANAGEMENT SYSTEM – LARAVEL | FULL STACK

- Built a hotel booking platform with admin/client workflows and role-based access, streamlining reservations and improving user control.

EJAS: AN ACCOUNTING SYSTEM – MERN STACK | TEAM COLLABORATION

- Collaboratively developed AI-powered solutions across frontend and backend, leveraging GitHub for efficient version control and seamless team coordination, resulting in enhanced user experience and optimized system performance

BODY SCANNER – PYTHON

- Built a hotel booking platform with admin/client workflows and role-based access, streamlining reservations and improving user control.

NO ADS PDF EXTRACTOR – NEXT.JS

- Created a lightweight tool to extract PDF content without ads, addressing frustrations with bloated commercial platforms.

DOCUMENT MANAGEMENT SYSTEM – LARAVEL | OJT TEAM PROJECT

- Worked with a team to convert a document tracking system into a Laravel app that records check-ins and check-outs by personnel. Used AI tools to support development and enhance code quality. Submitted the system for department use at CLSU.

MORE PROJECTS AVAILABLE AT: cons7.vercel.app

Explore my constellation-inspired **portfolio**, a collection of projects where I leveraged AI tools to accelerate problem-solving, turn ideas into functional systems, and streamline the development process–each one rooted in real frustrations and built with purpose.

CERTIFICATIONS & EVENTS

- Registered Participant – First National AI Prompt Engineering Challenge (2025)

- Registered Participant – First National AI Prompt Engineering Challenge (2025)

- Certificate of Completion for AWS Academy Graduate - **AWS Academy Cloud Foundations**

WHAT SETS ME APART

- I don't just code – I build to solve problems.

- I see AI as a tool to unlock speed, creativity, and real impact.

- I focus on users, simplicity, and constant iteration.

- I learn fast, fail smart, and grow even faster.

AVAILABILITY

- Open to remote or on-site internships. Immediate start possible.
